

Tell Some Sick One

It Is Free If It Fails.

Will you do an act of humanity?
Will you tell some sick friend of this, my remarkable offer?

Tell him or her, that you have learned of a medicine so certain that its maker dare say to the sick, "It is absolutely and unconditionally free if it fails."

And you, no doubt, already know of Dr. Shoop's Restorative and its popularity.

For 30 years it has been the standard remedy for Stomach, Kidney and Heart ailments everywhere in America.

When the "inside" or controlling nerves of these vital organs begin to fail, it is Dr. Shoop's Restorative that has quickly vitalized, and strengthened, and brought these nerves and organs back to health again.

I do not dose the Stomach, nor stimulate the Heart or Kidneys—for that all without cost. Dr. Shoop's Restorative goes direct to the cause of these ailments—the falling, faltering, inside or controlling nerves. And herein lies the keynote to my success.

When these nerves are again made well and strong, then that is the certain end of all such sickness.

There is a great satisfaction that I am the only physician able to say to the suffering sick, "Take my prescription for full 30 days, and if it fails to help you, the entire expense is mine—not yours."

Then why should the sick take any chance on any other medicine, whose maker dare not back it just as I do by this remarkable offer?

Take have a Rheumatic Remedy—and that remedy is covered by the same identical "No help, no pay" protective plan.

Besides, you are free to consult me just as you would your home physician. My advice and the book below are yours—and without cost.

Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice plan. My best effort is surely worth your simple request.

So let me send you an order at once. Take the message to some sick friend.

A postal will bring the opportunity. I will have an honest and trustworthy drug-gist to whom you can conveniently go for the 30 day test.

But first, ask me for the order, for all drug-gists are not authorized to give the 30 day test. So write me now and save all delays. Remember that tomorrow never comes. Address Dr. Shoop, Box 12, Racine, Wis.

Which Book Shall I Send You?

No. 2 On the Heart No. 5 For Men
No. 3 On the Kidneys No. 6 On Rheumatism

Does Mr. Madison Favor the Railroads?

During the last session of congress, two bills were introduced, one in the senate and one in the house, and they were very similar to each other, prohibiting foreign corporations from removing suits commenced by citizens of the state against a corporation in their own home courts to the federal courts. The bill in the senate, and which was passed by the senate and sent to the house, prohibited the removal of any such suits to the federal court except for local prejudice, which would probably prevent a fair trial; the bill in the house, but which failed to pass the house, prevented the removal of suits from the state courts to the federal courts, on account of divers citizenship, unless the amount as sued for was in excess of \$5000.

When the last named bill came up for a vote in the house of representatives, Congressman Madison was present but did not vote upon the bill. The congressional record places the words opposite his name, "present, but not voting."

The Rock Island Railroad Co. has an operated mileage in the state of Kansas of 1,425 miles and has many divisions and stations therein and employs thousands of workmen within the state of Kansas, and draws millions of dollars through freight and passenger rates from the people of this state yet every person within the state, whether an employe or not, who commencing a suit against the Rock Island in excess of \$2000 will have his suit removed to the federal court, which is known and designated as the rich man's court, because the Rock Island is incorporated under the state of Iowa.

It is the settled policy of the Rock Island to remove all suits against it for \$2000 or more to the federal court.

Recently two suits were brought in the Reno county district court against the Rock Island for personal damages, each of them for an amount in excess of \$2000 and both of these suits were at once removed by the Rock Island Co. to the federal court at Wichita.

One of these suits was brought by Charles Sperry, who lives at 1124 E 6th avenue, for injuries to him through the negligence of the Rock Island company, which injuries have disabled him for life.

The other suit was brought by E. M. Garman, who lives at 537 East E avenue, whose leg was broken and crushed by a collision at the Maple street crossing caused through the negligence of the company, thereby injuring Mr. man for life.

Neither of these men can afford to litigate the great Rock Island Railroad Co. in the federal courts, but they are compelled to do so against their will because the bills above mentioned were not passed.

It should be borne in mind if these parties are successful in their suits at Wichita, and the railroad company appeals, or if they secure a verdict because of an error committed by the court and an appeal became necessary,

the case would then go to the U. S. circuit court at St. Paul, Minn., instead of to the supreme court of the state of Kansas at Topeka.

Congressman Madison is a lawyer and knows that the average person cannot afford to fight a great railroad corporation in the federal courts, and yet, notwithstanding that fact, he sat silent and refused to vote upon a bill which was of such vast importance to the laboring classes of this district and the United States. This one act of Mr. Madison alone is sufficient to warrant his defeat in November. It shows that he is afraid of the influence of the railroad companies and that rather than vote for a bill in the interests of the people, and thereby incur the displeasure of the railroads, he sat silent.—Hutchinson Gazette.

Madison and the Woolen Schedule.

When the Republican party met in national convention at Chicago it adopted a platform, one plank of which pledged the people that if that party was entrusted to power, it would make a revision of the tariff downward, and congress was elected

by the people of the United States upon this platform, and Congressman Madison was a member of that body and pledged to lend his assistance and give his vote for a tariff bill that would actually reduce the tariff. But when Mr. Madison went down to Washington, he found that all of the big manufacturers and trusts of the United States were there for the purpose of preventing a revision of the tariff downward, but instead to secure an increase thereof on many articles of common necessity throughout the country.

This winter the wearers of men's ready made clothing will pay throughout the United States an aggregate of \$120,000,000 more than ever before. Directly after schedule "K" of the Payne-Aldrich bill was settled last August the woolen manufacturers sent notices out to the manufacturers of clothing of a 20 per cent advance in prices of cloth. The manufacturers of clothing say they cannot afford to pay that advance. The pass it on to the consumer, who is compelled to. It has been distributed through every city and village in the United States. By a marking up of prices a \$10 suit has become \$12.50, the \$15 suit

\$18 and so on. But most of it will be shoddy.

Congressman Madison, if he cared to take the pains, would have known all this and undoubtedly did know of this increase in the woolen schedule, and also knew, or should have known, it would hit the pocket book of his constituents in the 7th district a heavy blow, yet he preferred to vote for the Payne-Aldrich tariff bill because Aldrich and Cannon wanted him to, for the flimsy reason of party regularity.

Mr. Madison does not deserve a re-election for the reason that he went back on his constituents, and by his vote for the Payne-Aldrich tariff bill increased the cost of living to every man, woman and child in this district.—Hutchinson Gazette.
